

Sustainable Food Policy

Supporting the University's commitment to sustainability and environmental stewardship, the Sustainable Food Policy aims to ensure that the University's food procurement and service practices are aligned with its commitment to sustainability and environmental stewardship.

The policy sets out the University's commitment to sustainable food procurement and service practices, and provides a framework for the implementation of the policy. The policy is designed to ensure that the University's food procurement and service practices are aligned with its commitment to sustainability and environmental stewardship.

- Reduce food waste
- Support local food producers
- Ensure food safety and quality
- Promote sustainable food production practices

The University is committed to ensuring that its food procurement and service practices are aligned with its commitment to sustainability and environmental stewardship. This commitment is reflected in the Sustainable Food Policy, which sets out the University's commitment to sustainable food procurement and service practices, and provides a framework for the implementation of the policy.

The University is committed to ensuring that its food procurement and service practices are aligned with its commitment to sustainability and environmental stewardship. This commitment is reflected in the Sustainable Food Policy, which sets out the University's commitment to sustainable food procurement and service practices, and provides a framework for the implementation of the policy.
